

Trend Podium Desk

Product Numbers: 58229-XXXX-XX, 58230-XXXX-XX

OVERVIEW

The innovative and stylish Trend Podium Desk combines a desk and podium into one convenient and flexible workspace.

PODIUM & DESK TOP

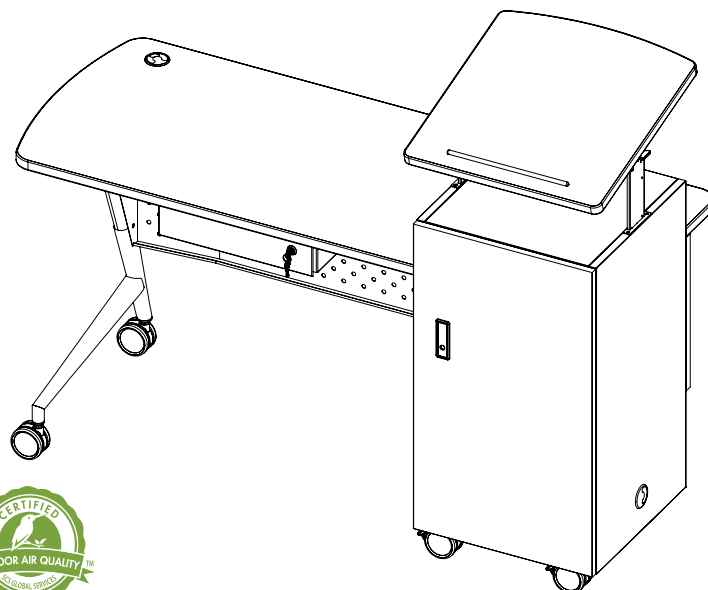

Both tops are made of 1" Particleboard Core with 3mm Flat Vinyl T-Mold Edge. The work surface is constructed of 45# particleboard core with highpressure laminate (HPL) top surface and phenolic backer sheet for balanced construction. Edgebanding is secured to the work surface with brad nails along the perimeter. Desk top surface stands 30" tall. 15 degree tilted podium top features 6" of height adjustment from 43" to 49" and locks in place. Podium top includes an aluminum pencil/paper stop. Tops available in a variety of laminate and edgeband colors.

PODIUM BODY & STORAGE

Podium cabinet consists of a fully enclosed, side, back, side construction with welded structural channels for added strength. Top front corners are welded and the top is bracketed and bolted to case sides, back and inner frames for additional structure. A single piece bottom pan constructed of steel accommodates attachment of caster assemblies. The locking door is standard with a turn and lock cast aluminum handle for additional security. Podium top height adjustment is engaged by two levers on the uprights. Two steel shelves are bent and welded and provide vertical adjustment through clips into slotted channels. Two 60mm round grommets are installed in the side of the cabinet and one is installed in the top of the cabinet. Grommets include a spring loaded cord access door and are constructed of high impact resistant ABS with a textured black finish.

CASTERS

Desk is equipped with 3" locking non-marring casters.

DESK FRAME/DRAWER

Desk frame consists of a single Trend Desk leg and modesty panel. Leg is constructed from 20-gauge steel tubing welded to a 10-gauge steel plate that screws into table with four M5 x 13mm machine screws. Perforated 20-gauge steel modesty panel secures to leg with three M5 x 25mm screws and back of podium with four screws. Leg and modesty panel are both powder-coated in platinum. Locking 11"D x 30"W x 2"H pencil drawer is constructed of 14-gauge steel with reinforcement channels and bolts into underside of desk top with four screws threaded through inserts.

CERTIFICATIONS

Indoor Advantage Gold certified.
