

Porcelain vs Hard Plastic Table Top Comparison

Why choose porcelain over a hard plastic top?

- Porcelain steel is designed specifically to be a dry erase whiteboard surface and provides better writability and erasability
- Porcelain steel will not ghost!
- Porcelain steel is hard and durable and accepts magnets for even more versatility
- Porcelain is wear-resistant, bacteria-resistant, and chemical-resistant
- Porcelain steel surface is completely encapsulated in the edgeband, providing protection against rust and delamination
- Porcelain steel comes with a lifetime guarantee!
