

Height Adjustable Bistro Table

Part Numbers: 91189-R-XXXX-XX, 91189-S-XXXX-XX

TOP:

The top is made of 1 1/8" Particleboard Core with 3mm Flat Vinyl T-Mold Edge. The work surface is constructed of 45# particleboard core with high pressure laminate (HPL) top surface and phenolic backer sheet for balanced construction. 1 1/8" 3mm flat vinyl t-mold is secured to the work surface with brad nails along the perimeter.

HEIGHT ADJUSTABLE BASE:

The base is constructed of three separate parts: the base, the height adjustable upright and the table bracket. The base is made up of stainless steel and attached to the height adjustable upright using two (2) M8 x 40mm screws. The height adjustable upright is made up of one (1) 2" and one (1) 1.5" stainless steel tubes nested together with a pneumatic cylinder on the inside. The table had a height range of 30"-38". The upright is connected to the table bracket using four (4) M6-12mm screws. The assembled base is connected to the top using six (6) #10 x 7/8" screws.

PNEUMATIC CYLINDER:

The height adjustable base has a pneumatic cylinder that lifts the top. Applying downward pressure to the top will lower the table. The upright had a plastic locking handle to lock the position to the desired height.

GLIDE:

There are four (4) plastic glides on the bottom of the base.

COMPLIANCE:

Indoor Gold Advantage certified.

Meets or exceeds BIFMA testing.

Square Bistro

Round Bistro
