- Renew or replace any torn or worn board with a Colored Cork Self-Adhesive Skin, made with colorful and durable Forbo® linoleum, produced from natural and renewable raw materials.

- A combination of oxidized linseed oil, rosin and finely ground cork gives this board its flexibility and resilience. This mix of materials results in a product with exceptional durability and a sustainable footprint.

- The natural self-sanitizing quality of linoleum inhibits contaminants for a low maintenance board. The surface does not attract dust and has bacteriostatic properties. This makes it a practical solution in classrooms and a hygienic choice in healthcare environments.

- Surface is self-healing and colored throughout to ensure colorfastness and eliminate fading. The board material retains its grip and doesn't crumble like traditional soft boards as the tack holes close after pins are removed.

- Self-adhesive skins feature a peel-and-stick backing that applies easily to an existing board.

- **CAUTION:** Self-stick adhesive is intended for resurfacing on an existing board surface and has not been tested for use on other materials.

- Ten year limited warranty. SCS Indoor Advantage Gold Certified.

COLORED CORK TECHNICAL INFORMATION

- Colored Cork surface is made with Forbo® linoleum permanently adhered to a moisture-resistant substrate.

- Colored Cork meets ASTM E-84 (Fuel Contribution) - Class B and NFPA 253 (Critical Radiant Flux)- Class II ratings.

- Not susceptible to build-up of electrostatic charges, is self-healing, and reduces light reflections.

- Resistant to bacteria and to diluted acids, solvents, and other materials.
