

Sink in, Stay awhile.

Available on select soft seating, TruPlush™ delivers the next level of comfort—because every seat should feel like your favorite.

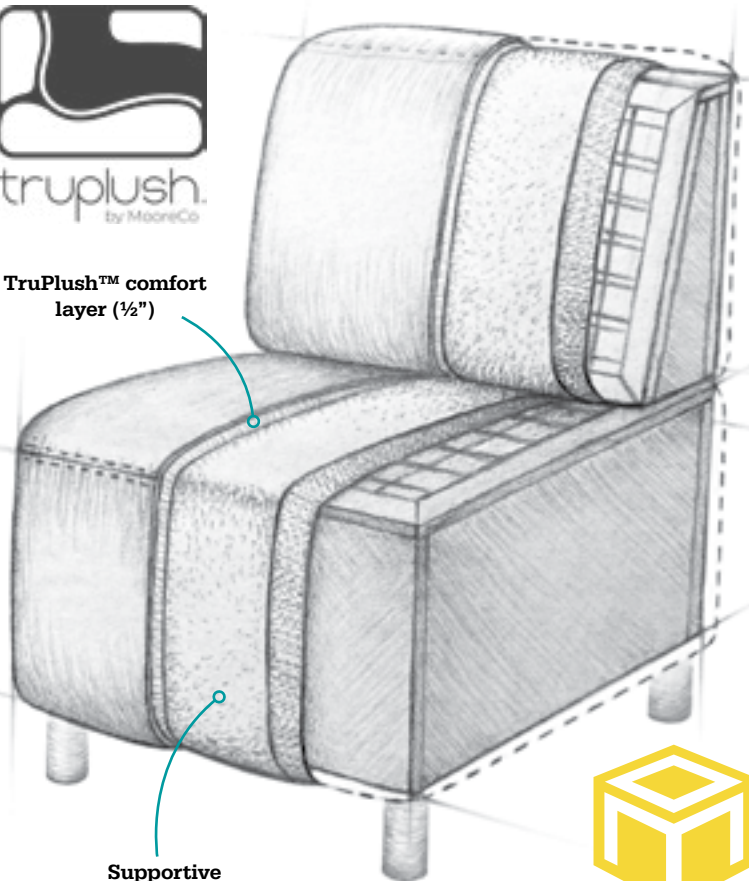

Introducing TruPlush™ by MooreCo — our new standard in comfort for select soft seating.

TruPlush™ is our latest innovation in soft seating—bringing a noticeably softer, more inviting feel to select products without affecting lead times or warranty. Built with a two-layer foam system, TruPlush features a 3-½" supportive base and a ½" comfort layer for just the right balance of softness and structure.

It's not an add-on. It's an upgrade in foam density—engineered to hold up beautifully while offering a warmer, more welcoming experience in classrooms, lounges, offices, and media centers. Comfort you can count on.
