KEY FEATURES

Porcelain Steel Surface

Write, sketch, plan, and collaborate directly on the tabletop. Low glare porcelain writes and erases cleanly, and accepts magnets.

Exceptional Durability

Harder and more scratch-resistant than HPL, porcelain steel is wear-resistant, resists delamination, and has a lifetime warranty.

Fully Encapsulated Edge

Molded polypropylene edge banding is slightly raised, preventing runoff and sealing the porcelain surface to protect against rust.

Flexible Heights for Any Setting

Choose from 29" (seated height), 36" (counter height), or 42" (standing height) to support diverse teaching and learning styles

Customized Storage Add-Ons

Steel pegboard side panels keep tools close by and under-table shelf provides additional material storage.

Stronger. Smarter. Writable. Built for Ideas That Stick.

Empowering students to think, create, and do, the Compass Makerspace Table with Porcelain Steel Top takes active learning to the next level. Featuring an ultra-durable porcelain steel whiteboard surface, this table invites creativity, collaboration, and problem-solving—right at the tabletop.

With flexible height options, superior writing performance, and integrated storage solutions, this table is designed to support evolving classroom needs and dynamic maker environments. SCS Indoor Advantage Gold Certified to support healthier learning spaces.

Ideal for:

- Makerspaces and STEM labs
- Design and fabrication classrooms
- Career and technical education centers
- Collaborative planning zones
- Studios, commons, and open innovation spaces
