

MOORECO

DOT ROCKING STOOL

CONSTRUCTION & FEATURES:

- Active seating perfectly sized for anyone to provide hours of balanced learning or working.
- Adding flexible seating to your spaces increases a user's sensory experience, shown to improve calmness, focus, and reduce tension. By creating space where humans of all ages can relax, you foster positive attitudes and encourage learning.
- Rocking motion created by a smooth black base allows these cylindrical soft seats to create rhythmic micro-movements that help release excess energy.
- Dot Rocking Stools come in two diameters (15" and 18") and in four heights: extra low (5"), low (12"), medium (15"), or high (18").
- All Dots are ideal for engaging the core muscles and allowing motion while working to create more focus. The extra low Dot can be used as a stool or kneeling platform.
- Stacks for easy storage or use our Dot Cart for mobile storage.
- Available with a rocking non-skid base in black plastic.
- Available through our graded-in fabric program or COM options. Custom embroidery also available. Call for details.
- SCS Indoor Advantage Gold Certified.
