Thrive from Day One:

Early Learning Spaces That Support Every Stage of Discovery

At MooreCo, we believe early learning environments should do more than support education—they should inspire it. Our solutions are developed through a deep understanding of how young children grow, play, and connect.

Guided by our Thrive Philosophy, we design spaces that nurture the whole child—supporting physical movement, emotional comfort, social connection, and cognitive discovery.

Our approach blends flexibility, comfort, and purposeful design to give educators the freedom to adapt their classrooms to the many ways young children learn. Spaces become invitations: to imagine, to collaborate, to move, to rest, to try again. When the environment meets children where they are and grows with them, something powerful happens—they develop confidence, creativity, and a sense of belonging. In other words, they thrive.

MooreCo's Thrive Philosophy for Early Learning Environments

Physical: "I Can Move & Grow"

Active bodies need room to move. MooreCo's age-appropriate seating, adjustable-height tables, mobile storage, and flexible layouts support healthy movement, posture, and gross motor development throughout the day. Durable, easy-clean materials stand up to daily play while helping educators maintain safe, hygienic spaces where young learners can move freely, comfortably, and confidently.

Intellectual: "I Can Explore & Learn"

Children learn best through curiosity and hands-on discovery. With versatile tables, writable surfaces, mobile easels, and adaptable furniture, MooreCo environments encourage exploration, creativity, and early problem-solving. Flexible design supports individual focus, small-group learning, and collaborative play, allowing spaces to evolve alongside growing minds.

Social-Emotional: "I Belong & Play Together"

A sense of belonging is foundational in early childhood. Soft seating nooks, shared work surfaces, and welcoming gathering areas invite connection, cooperation, and imaginative play. MooreCo furnishings help create environments where children feel comfortable interacting with peers, building relationships, and developing empathy in spaces designed just for them.

Psychological: "I Feel Safe & Comfortable"

When children feel secure, they're free to learn. Quiet corners, cozy seating, and thoughtfully scaled furnishings provide emotional reassurance and predictability. Calm colors, rounded forms, and well-organized spaces help reduce overstimulation and support focus to create classrooms that feel safe, comforting, and emotionally supportive.

Moral: "I Am Included & Valued"

Every child deserves to feel seen and respected. Inclusive design that prioritizes accessible furniture, flexible layouts, and developmentally appropriate sizing supports diverse abilities, learning styles, and needs. MooreCo products help educators create equitable environments where all children can participate fully and feel valued as part of the community.

Spiritual: "I Can Wonder, Imagine, & Be Me"

Early learning is full of wonder. Natural textures, soft palettes, and organic shapes help create environments that feel calm, inspiring, and joyful. Biophilic cues and thoughtfully designed spaces encourage imagination, reflection, and emotional balance, giving children room to dream, create, and simply be.

Built for little hands, made for big discoveries

Porcela™ blends a refined porcelain finish with the strength of steel to deliver durable, easy-to-clean surfaces designed for daily classroom use.

Its nonporous, magnetic dry-erase surface supports cognitive development, resists stains and everyday messes, and helps educators maintain healthy, hygienic learning spaces with confidence.

From art projects to group activities, Porcela surfaces are built to perform beautifully over time—offering long-lasting durability with environmentally and budget-conscious benefits.

Why Choose Porcela in Early Learning?

Magnetic surface is ideal for special needs and neurodivergent learners through hands-on interaction

Low-glare surface improves visual clarity and reduces eye strain

No ghosting, durable surface ideal for busy hands; doodling and writing build neural pathways for learning and memory

Microbe- and dust-resistant surface helps reduce the spread of germs and allergens, especially important for children ages 3–8, when viruses are most commonly transmitted

Chemical- and heat-resistant construction withstands frequent use of strong cleaning agents

Lifetime guarantee eliminates the need for replacement every three years

Recyclable ceramic steel reduces environmental impact and supports sustainability

Rainbow Reading Retreat

Where bright colors and comfy corners ignite exploration, imagination, & discovery

Our Rainbow Reading Retreat splashes colorful oranges, blues, and greens to make early learners feel welcomed and inspired. This dynamic early learning environment is designed to do more than one thing at a time. It supports construction, collaboration, imagination, and movement, all within the same space.

MooreCo's flexible furniture systems allow classrooms to shift seamlessly between activities, creating:

- Collaborative gathering zones with Hierarchy desks that easily configure into small and large groups
- Hands-on building and activity centers with a variety of activity tables and flexible seating
- Beanies and Morris soft seating create comfortable areas for quiet time

Featured Finishes:

Ginkgo

Jockey Red

Navy

Tuscan

Infinity

Silvertex

Fusion Maple

Featured Products:

- A. Hierarchy Gather Table
- B. Hierarchy Snap Desk
- C. Hierarchy Activity Round Table
- D. Hierarchy 4-Leg Chair
- E. Hierarchy Grow Stool®
- F. Beanies Outdoor Chana Lounge Chair
- G. Beanies Outdoor Round Ottoman
- H. Dot Rocking Stool
- I. Morris Kids Loveseat
- J. Morris Kids Chair
- K. Compass Cabinet
- L. Hierarchy Grow & Roll® Mobile Board

TruPlush™ soft seating creates a comforting landing place where young learners can slow down, settle in, and get lost in a story—supporting focus, emotional ease, and a love of reading.

As children explore colorful spaces that shift with them, they build creativity, connection, and a sense of belonging.

Hierarchy Grow Stools® encourage wiggly bodies to settle down.

The teacher zone seamlessly integrates technology, one-on-one interaction, and movement to support meaningful engagement for both students and educators.

Mobile storage for books and floor pads, make it easy for learning to happen anywhere.

Porcelain steel delivers a nonporous, ultra-cleanable surface built for the busiest learning zones—right at the heart of the classroom.

Bloom & Grow Learning Zones

Multiple nooks and zones for curiosity and discovery

Our Bloom & Grow active classroom fuses gentle purples, lively greens and wood tones inviting young learners to experiment and explore.

Young learners thrive in spaces that give them choice. Thoughtfully layered zones create opportunities to move, gather, and navigate independently—helping children follow their curiosity and engage more deeply with the world around them. Curiosity is the foundation of early learning and reading is its best friend.

MooreCo environments are designed to stimulate the senses through:

- Accessible materials and storage with mobile Stazio Angled Book Stand
- Flexible seating combining chairs, nooks, and soft seating pieces
- Open layouts that encourage movement

Featured Finishes:

Featured Products:

- A. Hierarchy Activity Rainbow Table
- B. Hierarchy Activity Flower Table
- C. Hierarchy Rectangle Desk
- D. Hierarchy 5-Star Chair
- E. Hierarchy Cantilever Chair
- F. Elevate Wind Down Nook
- G. Elevate Baby Steps
- H. Dot Cart
- I. Stazio Mobile Angled Book Stand
- J. TLC-2 Platinum

By creating spaces that invite discovery, educators can foster confidence, independence, and a lifelong love of learning.

Caterpillar Reading Garden

A whimsical library where every seat invites little ones to experience a new story

Children learn best when they are actively involved. Experiential environments give young learners the opportunity to engage their senses, test ideas, and explore new concepts through play.

Reading fuels imagination and role play by introducing children to new ideas, characters, and experiences they can bring into their play. It builds language and storytelling skills, helping them create roles, dialogue, and scenarios, while also encouraging empathy as they explore different perspectives. Through play, children turn stories into action, making learning creative and meaningful!

MooreCo solutions support this with:

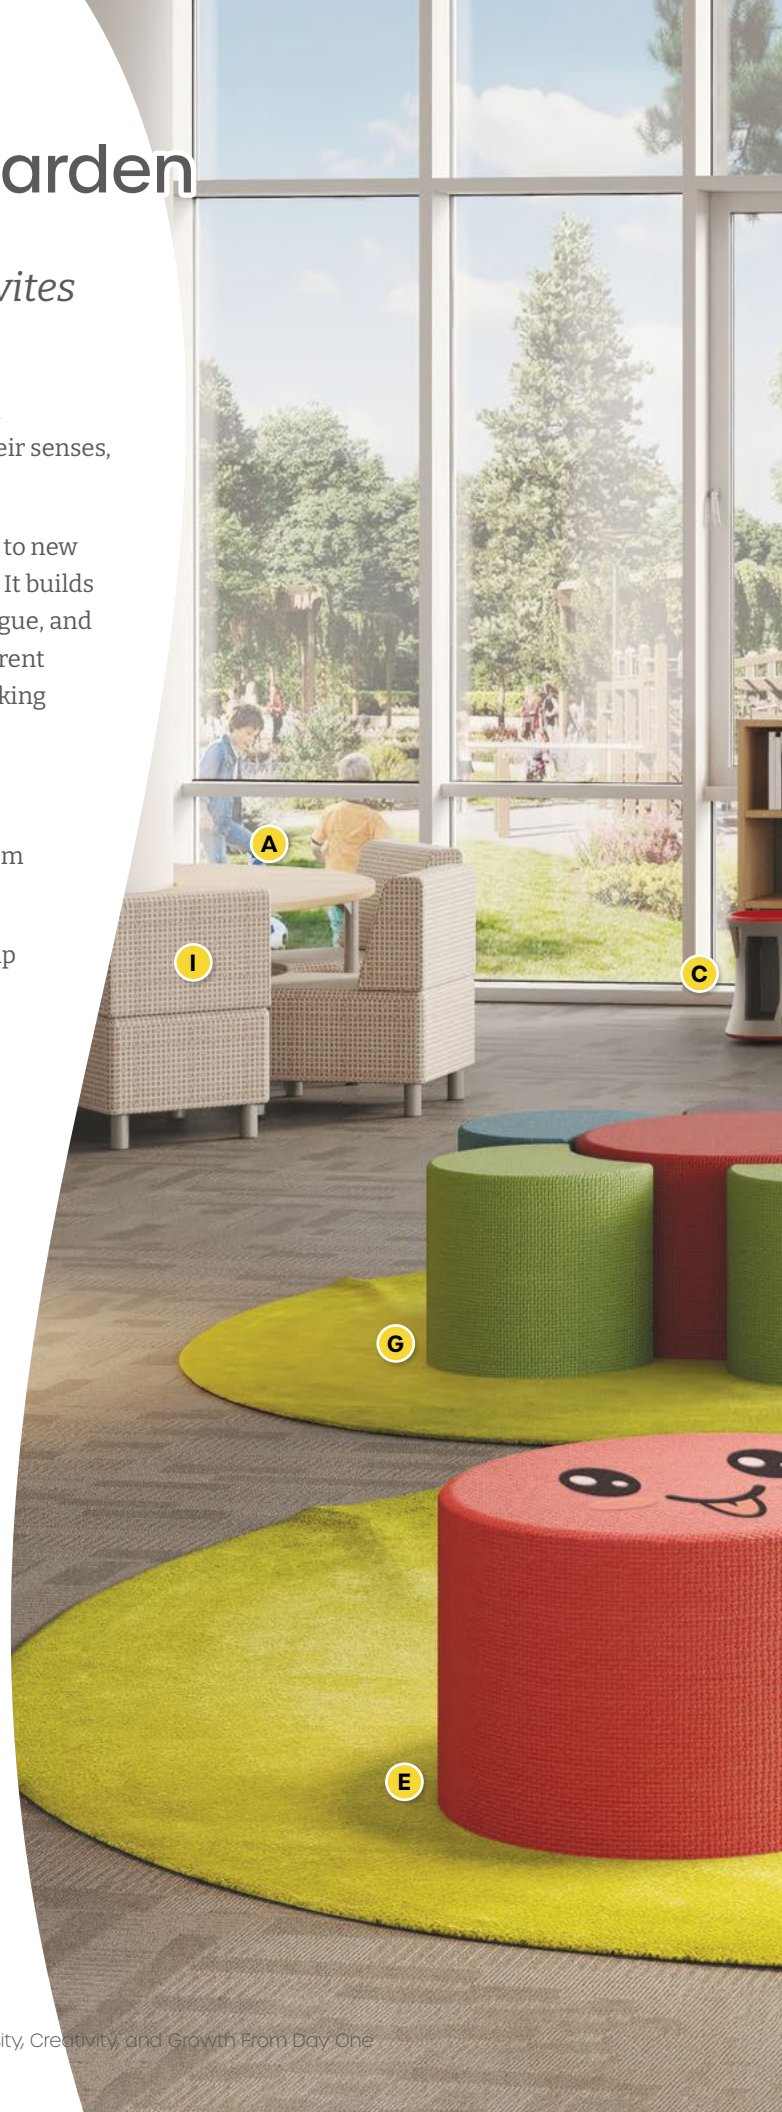

- Mobile bookcases that keep materials moving through the room and within reach
- Flexible soft seating that forms into fun shapes for either group or individual work
- Wobble stools and rocking chairs to support movement

Featured Finishes:

Featured Products:

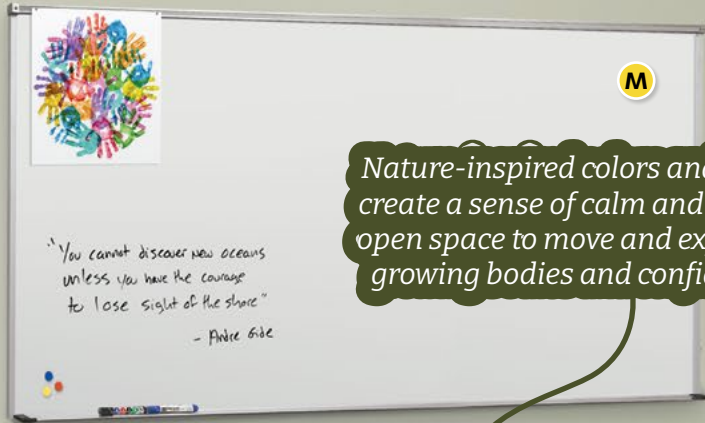

- A. Hierarchy Activity Rainbow Table
- B. Hierarchy Activity Round Table
- C. Hierarchy Flipz Stool
- D. Hierarchy Grow Stool®
- E. Blossom Center Ottoman
- F. Blossom Petal Stool
- G. Blossom Soft Seating Set
- H. Dot Rocking Stool
- I. Morris Kids Single Chair
- J. Soft Sway Rocking Chair
- K. Schoolworks Bookcase

By creating a calm, organized backdrop for books and materials, the Schoolworks Bookcase helps foster quiet focus, gentle exploration, and a sense of comfort for young learners.

As children move, imagine, and bring stories to life, they build language, creativity, and connection.

Nature-inspired colors and textures help create a sense of calm and comfort, while open space to move and explore supports growing bodies and confident learners.

When children can move, explore, and choose their path, they build independence and a deeper understanding of the world around them.

Forest Friends Classroom

A versatile space inviting the outdoors in for children to experience the enriching power of nature and open-air inspiration

Nature promotes emotional well-being by reducing stress and fostering a sense of calm and resilience. Its open-ended settings encourage creativity and imaginative play, while active exploration builds coordination, strength, and motor skills.

Biophilic design is accomplished by using mossy greens and circular textiles, natural wood tones, forest-inspired wall graphics and natural cork tackboards where kids can proudly display their work.

Young learners need the freedom to move. Physical interaction with their environment helps develop coordination, confidence, and cognitive processing skills.

MooreCo classrooms are designed to:

- Provide flexible layouts that adapt throughout the day
- Encourage safe, active movement
- Support self-directed exploration

Bright Ideas Workshop

A playful lab where curious minds play, tinker, and collaborate

Play is inherently social. When children play, they share experiences and build community. Playing helps develop communication skills, empathy, and problem-solving. Our Bright Ideas workshop is designed to spark discovery and creativity. Playful tabletop shapes paired with magnetic dry-erase surfaces make it easy for young inventors to collaborate, experiment, and bring ideas to life.

Just as important as accessibility is organization. Compass cabinets and Array shelving provide smart storage solutions that keep materials neatly tucked away while still within reach. Magnetic dry-erase tables and boards support group activities by helping organize instructions, ideas, and collaboration in one shared space.

MooreCo environments encourage connection by offering:

- Array and Compass storage keep materials accessible and organized
- Porcelain steel on tables, back of cabinets, and mobile boards for expression and focus
- Comfortable areas that invite conversation and play

Featured Finishes:

Featured Products:

- Hierarchy Creator Half Round Table
- Hierarchy Creator Trapezoid Table
- Hierarchy Creator Triangle Table
- Hierarchy Creator Rectangle Table
- Hierarchy 4-Leg Chair
- Hierarchy Grow Stool®
- All Foam Comfy Block I
- Array Shelving
- Porto Mobile Book Cubby Cart
- Compass Cabinet
- TLC-2 Platinum

Ideas move fast in the makerspace. The TLC-2 Platinum Mobile Whiteboard rolls wherever learning happens, pairing a generous writing surface with built-in storage to keep supplies close and creativity flowing.

As children interact, they naturally develop storytelling, problem-solving, and relationship-building skills that support lifelong learning.
